

Homeschool Program

Carmel Swim Academy offers special programming for students enrolled in homeschool. Enjoy tailor-made programming for your student! Lessons consist of learning and refining all four competitive strokes while building endurance.

CSA's Homeschool Program is designed for swimmers ages five and older. Swimmers must be able to swim independently; instructors teach this program from the pool deck, not in the water. Swimmers who need in-water instruction should enroll in our traditional group swim lesson program.

Homeschool classes run one hour. The program is offered on Tuesdays and Thursdays from 1:15 to 2:15 PM. Swimmers can enroll in one or both days per week. This program is priced at \$30 per class, and there is a 10% discount on additional registrations, i.e. registering for two classes per week for one swimmer, or registering two swimmers for one class.

Sessions for this program are concurrent to our traditional group swim lessons, and vary between four and five weeks in length. Costs per session for one swimmer attending one class per week range between \$120 and \$150 depending on the session length. There are up to 10 students per instructor.
